

Practical No.: 3

Aim

To prepare a **Test Plan, Test Scenarios, Test Cases, Test Execution Report, and Defect Report** for a web application using **MS Excel/Google Sheets** as per the **Software Testing Life Cycle (STLC)**.

Software Required

- MS Excel or Google Sheets
- Internet Browser (Chrome/Firefox)
- Sample Website

Use this demo website:

<https://practicetestautomation.com/practice-test-login/>

This website is free and commonly used for testing practicals.

Step 1: Open Excel

Create one Excel file named

Web Application Testing.xlsx

Create **5 Sheets**

1. Test Plan
 2. Test Scenarios
 3. Test Cases
 4. Test Execution Report
 5. Defect Report
-

Step 2: Prepare Test Plan

Create the following table.

Field	Details
Project Name	Login Web Application
Module	Login
Objective	Verify Login Functionality
Testing Type	Manual Testing
Environment	Windows 11, Chrome Browser
Tester Name	Your Name
Test Start Date	Today's Date
Test End Date	Today's Date

Step 3: Prepare Test Scenarios:

Create another sheet.

Scenario ID	Test Scenario
TS01	Verify login page opens successfully
TS02	Verify login with valid username and password
TS03	Verify login with invalid username
TS04	Verify login with invalid password
TS05	Verify empty username and password

Step 4: Prepare Test Cases

Create this table.

TC ID	Test Case	Steps	Expected Result
TC01	Open Login Page	Enter website URL	Login page should open
TC02	Valid Login	Enter valid username and password then click Login	User should login successfully
TC03	Invalid Username	Enter wrong username	Error message displayed
TC04	Invalid Password	Enter wrong password	Error message displayed
TC05	Empty Fields	Click Login without entering details	Validation message displayed

Step 5: Execute Test Cases

Open browser.

Visit

<https://practicetestautomation.com/practice-test-login/>

Valid Credentials

Username

student

Password

Password123

Execute Test Case 1:

Action

Open website.

Expected

Login page opens.

Actual

Login page opened.

Status

PASS

Execute Test Case 2:

Enter:

Username

student

Password

Password123

Click Login.

Expected

Successfully logged in.

Actual

Successfully logged in.

Status

PASS

Execute Test Case 3:**Username**

Abc

Password

Password123

Click Login.

Expected

Invalid Username message.

Actual

Error message displayed.

Status

PASS

Execute Test Case 4:**Username**

student

Password

abc123

Expected

Invalid Password message.

Actual

Error message displayed.

Status

PASS

Execute Test Case 5:

Leave both fields blank.

Click Login.

Expected

Validation/Error message.

Actual

No validation message (example defect).

Status

FAIL

Step 6: Prepare Test Execution Report

Create another sheet.

TC ID	Test Case	Expected Result	Actual Result	Status
TC01	Open Login Page	Login page opens	Opened successfully	PASS
TC02	Valid Login	Login successful	Login successful	PASS
TC03	Invalid Username	Error displayed	Error displayed	PASS
TC04	Invalid Password	Error displayed	Error displayed	PASS
TC05	Empty Fields	Validation message	Validation missing	FAIL

Step 7: Prepare Defect Report

Create another sheet.

Defect ID	Module	Description	Severity	Priority	Status
D001	Login	Validation message not displayed when fields are empty	Medium	High	Open

Step 8: STLC Process

Write this flow in your journal.

Requirement Analysis

Test Planning

Test Scenario Preparation

Test Case Design

Test Environment Setup

Test Execution

Defect Reporting

Test Closure

Result

The Test Plan, Test Scenarios, Test Cases, Test Execution Report, and Defect Report were successfully prepared and executed manually using MS Excel/Google Sheets according to the STLC process.
